

LEWIS, F., Jr. F

22 March 1955

MEMORANDUM FOR THE DIRECTOR:

F. Y. I.

Fulton Lewis has returned from a trip to Spain and Germany. He interviewed Franco. He is conducting a war against Ed Murrow and Senator Margaret Chase Smith because she interviewed Franco and others for Murrow's program sponsored by American Aluminum Company using her office for commercial reasons, he charged.

In last night's radio program Lewis repeated a broadcast he said he made 12 years ago regarding J. Kenneth Galbraith of Princeton University, now known as John K. Galbraith of Harvard University. Lewis claimed Galbraith, as an OPA official, maintained that food rationing imposed during the war would continue in peacetime because American housewives became equal to Mrs. Ford and Mrs. Rockefeller due to rationing and would never again permit food purchase other than by a rationing system.
